

Michael S. Fioritto, D.D.S.

Dr. Michael Fioritto, a specialist in implant dentistry, lectures nationally and is the founder of Cleveland Implant Institute. The institute's goal is to teach doctors and their staff how to place and restore implants on their own patients.

Dr. Mike received his Bachelor of Science from Georgetown University and then went on to Case Western Reserve University to earn his Doctor of Dental Surgery (DDS) degree. Dr. Mike completed an externship at the Midwest Implant Institute after dental school, and then completed a one year comprehensive program in implant dentistry at the Medical College of Georgia's MaxiCourse. He is a Board Certified Diplomate of the American Board of Oral Implantology/Implant Dentistry, and a Fellow of the American Academy of Implant Dentistry (AAID).

Dr. Mike is chair for the Admissions and Credentialing (A&C) Board for the American Academy of Implant Dentistry, where he tests general dentists, periodontists, oral surgeons and prosthodontists from around the world trying to obtain Associate Fellow and Fellowship certification. He is a faculty member for the Washington, DC MaxiCourse and President of the AAID Central District.

Doctor Testimonials

Once again Mike made this a wonderful learning experience. So far my cases have not gone as planned due to the bone type. This leads me to learn even more as we have to re-evaluate on the fly. With Mike over my shoulder and giving me feedback I am gaining more experience with the different types of bone and how they feel as I am placing the implant. Thanks Mike.

- Seth Greenfield, DDS

I'm happy to be doing this FINALLY after so many years of "working on it". The cases went well, and highly recommend taking advantage of Mike's invite to do the surgeries at his office.

- Joe Leon, DDS

Thanks again for the awesome implant course last weekend. I really appreciate you taking the extra time to help my patient get all four of those implants! He is extremely thankful and pleased with how little pain he has had during the recovery. Great job with everything! The course was fun to take and I enjoyed getting to know the other dentists who came.

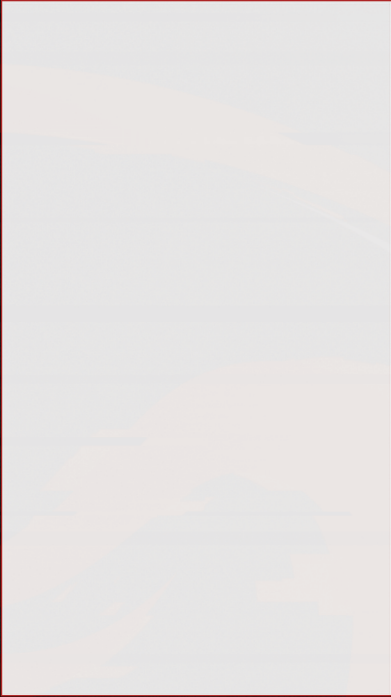

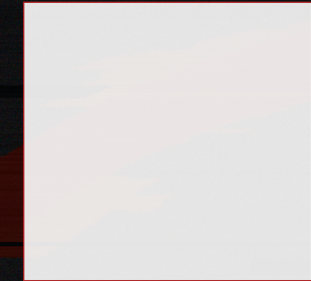

- Jed Koops, DMD

I cannot thank you enough for last night. I really enjoyed the presentation, picked up so many little (and big) things, and will be a huge advocate for Dr. Fioritto. I look forward to working with you and participating in all the future courses.

- Dan Glick, DMD

Just a quick note to let you know how much I appreciated your lecture. Your lecture was organized and very comprehensive! I was really impressed with the live video feed of the procedures - it gave everyone an opportunity to view and learn. The hands on with the bone grafting/membrane/suturing techniques was a great learning experience!

- Kathy Meehan, DDS, MS
